RESERVE

IBOGA WELLNESS INSTITUTE

RESTORE. OPTIMIZE. ELEVATE.

BY APPOINTMENT ONLY

Optimization, Neurorestoration, longevity, and human performance, fully personalized.

A one-of-a-kind Cozumel pathway for qualified guests seeking physician-led optimization, advanced diagnostics, regenerative support, recovery, nervous system restoration, and concierge-level care in an oceanfront setting.

[REQUEST RESERVE APPOINTMENT](#)

OPTIMIZATION PATHWAY

A private pathway for deeper restoration.

IWI Reserve brings together medical review, individualized planning, advanced restorative modalities, therapeutic support, and a private Cozumel setting for guests seeking a higher level of personalized care.

Reserve is intentionally selective: no published pricing, no generic protocol promises, and no one-size-fits-all claims. Each case begins with medical review and is planned around clinical fit.

MODALITIES

Care is built around the person, not a preset package.

Advanced Medical Review

Records, labs, EKG, current medications, risk factors, goals, and clinical fit are reviewed before acceptance.

Physician-Led Planning

Treatment timing, preparation, medication tapering when appropriate, and safety requirements are directed by the medical team.

Regenerative Support

Selected restorative therapies may be incorporated when medically appropriate and aligned with the guest's goals.

Neurological Optimization

Care is designed to support nervous system restoration, neuroplastic change, emotional regulation, and recovery capacity.

Performance Recovery

The pathway may support stress resilience, sleep, recovery, vitality, and sustained performance after the program.

Integration Support

Preparation and post-experience integration help translate insight into daily routines, support systems, and long-term change.

PRIVATE COZUMEL SETTING

The environment is part of the medicine.

IWI Reserve is hosted in a private oceanfront Cozumel setting selected for privacy, restoration, and uninterrupted focus. The setting supports the clinical plan with quiet space, ocean air, personal attention, and room for reflection before and after treatment.

CARE PATHWAY

A clinical process built around safety, not shortcuts.

01**Request Appointment**

Start with a private conversation to understand goals, history, and next steps.

02**Medical Review**

The team evaluates risks, records, labs, EKG, current medications, and clinical fit before acceptance.

03**Prepare**

Guests receive guidance around arrival, nutrition, expectations, and physician-directed tapering when appropriate.

04**Treatment**

Care is delivered with medical oversight, monitoring, therapeutic support, and individualized attention.

05**Post-Experience Integration**

Integration planning before and after treatment supports life after the program.

MEDICAL REVIEW

Acceptance is determined case by case.

IWI Reserve is not a walk-in spa program or a generalized retreat. Participation depends on medical appropriateness, medication history, cardiovascular review, mental health history, and the goals of the guest.

Screening

Health history, current medications, labs, EKG, and relevant records.

Planning

Physician-led timing, preparation, tapering guidance when appropriate, and safety requirements.

Monitoring

Clinical oversight, nursing support, and treatment-day monitoring according to the care plan.

COMMON QUESTIONS

What guests usually want to know.

Is pricing published?

No. IWI Reserve is reviewed by appointment because the scope depends on medical fit, goals, and the individualized plan.

Is this only ibogaine treatment?

No. Ibogaine may be part of the program when appropriate, but Reserve brings together medical review, advanced restorative modalities, recovery support, and integration in one personalized pathway.

Who reviews eligibility?

The IWI medical team reviews the case, including medications, relevant records, labs, EKG, risks, and clinical goals.

Where does it take place?

The Reserve pathway is centered in Cozumel, Mexico, in a private oceanfront setting designed for privacy, restoration, and focused care.

RESTORE. OPTIMIZE. ELEVATE.

BY APPOINTMENT ONLY

Request a Reserve appointment.

The first step is a private conversation with the IWI team. From there, the medical team determines whether Reserve is appropriate and what the next stage of review should include.
